Between IVANHOE and down-town Chicago, prices on the few scattered building sites that are both available and desirable are prohibitive to any except those who are in position to finance immense apartment house projects.

Beyond IVANHOE, prices in equally desirable subdivisions are even higher, while these further out developments are mostly small tracts, imposing either drastic restrictions which make the building of moderate priced homes impossible, or else inadequate restrictions that afford but little protection to the man who wants to invest his lifetime savings in a home that will be a thing of permanency.

Between these three extremes lies IVANHOE—not too far out, not too close in, but inch yield. 30 minutes to the I. C. Station at the foot of Grant Park. 32 minutes to Michigan No commuter would want to be closer to the loop. None prefer to spend more

> The chance to save a considerable sum on his home this year will lead many prospective builders to select lots in the suburbs, where the absurd restriction on building materials does not exist. Every builder who is thus driven into the suburbs helps to raise the value of suburban property at the expense of values in the city itself. We expect the owners of land in Chicago are not entirely blind to their own interests and will take steps to impress their views upon the concil.

WARNINGS FOR PEDESTRIANS

Iowa City, Ia., July 3.—Your editorial of July 3 suggesting a warning signal seems quite timely and practical.

Probably an intermission timed to permit the pedestrian towalk briskly between the curb lines would be sufficient. be used as the warning signal, then the regular whistle as now used for

traffic to move.

Your plan, it seems to me, would prepare wheel traffic to be in readiness
when the movement signal is sounded.
It would likewise prepare traffic to come to a stop prior to the "change" sig-nal. In short, traffic could be handled

more smoothly and the pedestrian would find more protection.

Wheel traffic making right-hand turns should be obliged to give a slight signal of the horn. The pedestrian oftentimes finds a car at his left upon stepping from the curn line when to all an from the curb line, when to all ap-pearances, he felt it was safe to move with traffic in the same direction. ROBERT N. CARSON.

THE DELIGHTS OF QUEBEC. Chicago, July 6.—Your correspondent, Arthur Evans, writing of the delights of wet Quebec, overlooks a number of important items. He says that it is now under a dispensary system and crime is on the decrease, implying that

brought about a marked improve ta dispensary system which is the country states before prohibition was thought of and proved utterly inadequate. South Carolina, for example, tried it, and though its population was largely light wine and beer drinkers, passed it up as a failure and voted bone dry before the Volstead act went into effect.

Again, Quebec people are not Americans. They are a phlegmatic French offshoot which was so unconcerned about the predicament of France when it went to war that they were a great problem when England and the rest of Canada went to war against Greaters. Quebec's mother country, France.

The light wine and beer drinking which your correspondent pictures as a thing of beauty when indulged in by a phlegmatic French Canadian would never work satisfactorily with peppy Americans. Algrand B. Andrews

SOUNDS LINE PAUL BUNYAN. BOUNDS LIKE PAUL BUNYAN.

Berwyn, Ill., July 5.—I remember a cells winter in Canada when the ice froze an hard we had to cut it with an acetylans gas torch. That tickled the boss, because he could charge \$5 more a ton for it. But that isn't the punck in this story. The icemen were fond of beans. They cleaned up every bean they could get their fingers on, so cookie had a safe made from this ice and stacked the beans in it. The brand of the beans doesn't matter—they don't advertise in your and for warmth, as some were still in bathing attire.

In the midst of these activities, with the fire burning rather high, a policeman pushed through the circle around the fire and started scattering the burning sticks and coals, with no warning or consideration for those upon whom they might land. He was decidedly gruff and discourteous when we asked the reason and said he had orders to keep down or break up the fires.

If he had informed us that our fire was in violation of the law we would nave extinguished it ourselves and probably have made a better job of it, for a few sticks that he left one on another were fanned by the breeze into flame again. He noted this on his return from breaking up a fire farther down the beach and accusing us of restarting the fire, finished his job, and threatened to "call the wagon" and take us in.

The party consisted of a mother and "Frank J. Schindless."

Summer Frocks of Lace and Net At \$17.50

There are so many afternoon and evening occasions when a frock just a bit "dress-up" is required. Then summery frocks, cool and charming, such as these featured here, bring just the proper degree of elaboration.

Made-over Pastel-tinted Slips of Silk

The color note is repeated in sashes or great silken flowers. The frock sketched at left is set with godets. Lace in filet pattern outlines a panel on the frock at the center. A wide ribbon girdle is a detail of the frock sketched at the right. Very unusual at \$17.50 each. Fourth Floor, East.

GUNMAN HE HELD Death Claims Samuel AS THIEF FREED, Samuei Swartchild, pioneer in the wholesale jewelry business, and founder of the Swartchild & Company, died Wednesday. He was 79 years old. He is survived by three sons and two daughters. Mr. Swartchild came to Chicago in 1860 and founded his jewelry firm immediately after the Chicago fire.

Judge John H. Lyle declared yester A. M. Jacobs, Indiana Bank day that after extended investigation he had found that Edward Ryan, one he had found that Edward Ryan, one of the gunmen he had held in \$100,000 bonds, had been discharged for want of prosecution. None of the prosecuting witnesses were ever asked to come to prosecute, Judge Lyle said.

Lyle investigated after Morris Froelich, one of the owners of the State Congress theater, met him on the street and told him nothing whatever had been done to bring Ryan to trial on a charge of robbery at pistol point of Charles D. Peet, treasurer of the theater. That was on Dec. 29, 1924, more than six months ago. Receipts of \$300 were taken.

Case Was Dismissed.

Upon investigation it was revealed the record of the Criminal court shows that the case was dismissed for want of prosecution. When Assistant State's Attorney Harold Levy, who had charge of the case, was asked for an explanation he hesitated for a time, Judge Lyle said. Finally he declared the case had not been dropped in that way, but that Ryan was discharged because he had been confined in feil for more than four months, the legal limit.

months, the legal limit.

In the search for the reason why the case had not been placed on call for four months, blame was put by John Passmore, clerk of the Criminal court, upon one of his deputy clerks who had failed, Passmore said, to enter

Passmore asserted it was the duty of the state's attorney to make certain that important cases are placed on call. State's Attorney Crowe disputed

Witnesses Never Notified.

Witnesses Never Notified.

No one could explain how, after the case had been forgotten for five months, it was suddenly resurrected, but too late. At any rate, on June 5, the case was on Judge John P. Mc-Goorty's call. Prosecutor Levy asked for a continuance, saying the witnesses were not present. Froelich and Peet, the theater men, who made a positive identification of Ryan as their assailant, declared they never were notified that the case was on the call.

A lawyer appointed by the court to represent Ryan learned from him of his long imprisonment without trial and moved for the discharge, which the judge was forced to grant.

The Latest Forward Step in Banking

A Combination Checking-Savings Account

THERE are just two things that L one can do with money-spend it or save it. And the "Republic" has designed a brand new Combination Checking-Savings Account to aid you to do both in the safest, surest and most business-like way possible. It is a bank account of two parts—a Checking Fund and a Savings Fund.

And it is all so simple. For instance, when you open your account you merely designate the maximum amount you wish to maintain subject to check. This amount should be

sufficient to cover the total amount of the checks you wish to draw per month. All deposits are first credited in your Checking Fund, but on the 10th of each month the excess then on deposit in your Checking Fund is automatically transferred

into your Savings Fund where it draws 3% Interest from the 1st of that month. In other words, you have two accounts in one -a Checking Account and a Savings Account - and the bank automatically takes care of all details for you.

An Automatic Savings Plan

Under the Checking-Savings Plan your saving becomes automatic, because your surplus money, the money you do not need to cover your current monthly expenses, is automatically transferred to your Savings Fund on the 10th of each month, but the interest is computed from the 1st

Compound Semi-**Annual Interest**

All funds on deposit in excess of the amount set aside in your Checking Fund to cover your current monthly bills earn 3% Compound Interest, payable on January 1st and July 1st. Thus your surplus income is continuously earning you 3% Interest.

Pay by Check on a Down-town Bank

When you maintain a Checking-Savings Account you can pay your bills by check on a big, strong National Bank in the Loop. Can you imagine a simpler, safer or more business-like way of paying bills? Every successful business man pays his bills this way, so why

An Automatic **Expense Budget**

Because you fix the maximum to be maintained in your Checking Fund at the approximate amount of your current monthly expenses, your Checking Fund virtually becomes an automatic expense budget—your check stubs show you, from day to day, whether or not you are exceeding the amount you intended to spend.

Bank by Mail if You Wish

When you "pay by check" you can pay bills safely by mail by simply enclosing your personal check. To deposit by mail you merely endorse your checks to this bank and sign your name. Mail to the Checking-Savings Division and your account will be credited and receipt mailed to you the same day.

National Bank Protection

When you deposit your money in a Checking-Savings Account in The National Bank of the Republic, you secure National Bank Protection for your funds, as this bank established in 1891-is and has been under the supervision and examination of the United States Government for 34 years.

Two Accounts

When you maintain a Checking Account and a separate Savings Account you are inconvenienced by the necessity of making frequent trips to the bank to deposit, with-draw or to transfer funds from one account to the other. When you maintain a Checking-Savings Account this is done for you automatically."

A Complete and Accurate Record

A Checking - Savings Account provides you at all times with a complete and accurate record of your receipts and expenditures. Your bank book reveals a complete record of your income and your check book furnishes you with an accurate record of every bill paid—the date, amount and name of payee,

An Automatic System of Receipts

When you pay bills by check each cancelled check auto matically becomes a good and valid receipt for the bill it paid. The endorsement of the payee is positive proof of payment. You need never pay a bill twice if you pay by check. This is another great advantage of a Checking-Sav-

Absolute Safety for Your Money

When you deposit your money in a Checking-Savings Account you completely eliminate risk. Even though your check book, bank book, or both are lost, stolen or destroyed, your money is still safe in the bank. Isn't that insurance worth while carrying?

Why Not Open Yours Today?

Today is one of the best days of all the year to open a Checking-Savings Account, because July 1st marked the beginning of a

new interest period and all accounts opened on or before July 15th will draw interest from July 1st. In other words, by opening your account today (or any day before July 15th) you are assured of receiving interest on your Savings

Fund from July 1st. Therefore if you wish to convert your present Savings Account into a Checking-Savings Account you will

not lose one penny in interest. All you need do is to bring in your Savings Bank Book and we will attend to all the details of converting it into a Checkng-Savings Account. Why delay? Why not open yours today?

Mrs. Dorothy Sherman of 556 East 65th street, the young mother of the boy, said that she had been warned ten days before his death on July 3 that she had better remove him and his 2 year old brother, Ralph, from the Rieger home.

"But the party hung up before I could get any details," she added, "and it was impossible for me to take them away then. My husband has deserted me and I had all I could do to make a living for myself and the boys."

The child's death was due to lysol polsoning. When he became ill Mrs. Rieger went to Dr. Don Harvey of \$154 Commercial avenue and told him she wanted him to come with her at once, as she was sure Elmer was poisoned. The physician demanded to know why

Meanwhile Thurston himself with a two bagger had pounded home two mates who had singled in the fifth, ixth with a single, and four loud hits

Sheely had shoved one home in the sixth with a single, and four loud hits in a row for a pair of markers in the eighth had given the Hose a three run advantage that made the engagement look like a downright cinch. These two tallies were produced on a double by Mostil, singles by Davis and Collins and a two bagger by Sheely, all of them off Marberry who had relieved Zachary in the sixth.

Thurston's unexpected demise in the minth started with a two bagger by the shifty Bluege. Falk made a whale a running catch of a foul to eliminate Peckinpaugh, then Ruel walked.

Boxer Versus Fighter.

The bout will bring together two fighters of vastly different types. Terris is a boxer of the Joe Gans type. while Hudkins is of the boring in type, the same as Nelson and Wolgast in their palmy days. Under such conditions of the fighter meeting a boxer, a good scrap always results, with the odds slightly in favor of the boxer. About 100 boxing fans of Omaha, headed by Billy Nestlehouse, Tom Dennison, and Paul Leidy, arrived in Chicago yesterday morning and lost no time to cover some of the Terris money. Mayor Jim Dahlman will head another delegation of Omaha fans which will arrive this morning.

"A Million Miles From Dull Care-Only 90 Minutes Away"

350 Long Beach Mothers know this is true—

350 mothers with families like mine told me they chose Long Beach because it was the ideal playground for their children. And they produced the evidence—wholesome youngsters aglow with health, proving the effectiveness of supervised play. That's why we are buying at Long Beach.

We liked Long Beach because it is the most beautiful matured country home community in the middle west. I talked to the mothers of the wholesome, tanned children that were at play under the supervision of the Long Beach athletic and aquatic coach and his assistants. Every hour of play is planned—every minute

I stood on Clubhouse Hill, saw scores of Long Beach women playing the weekly tournament on the sporty 18-hole golf course where my husband will spend his week-ends in health-building play with other good fellows. In the distance children played on the glorious Lake Michigan beach—2½ miles of it, exclusively for the use of Long Beach residents. I saw below the largest private club swimming tank in the world, where my children joined in supervised play with wholesome All around me were two and a half million dollars' worth of homes, with every

modern convenience—gas, electricity, running water. No drudgery for me at Long Beach—just rest, planned parties, pleasant associations among the most wonderful people—our kind—whom we are glad to call friends.

Our homesite wasn't expensive and the terms are most reasonable. The rigid restrictions assure the most congenial neighbors always—and our home will always be worth more than we paid for it. Our summers at Long Beach will be all too short, but then for compensation come the glorious week-ends we will spend there the That's the true story of Long Beach—and 350 Long Beach mothers will vouch for what I say.

nbou tob m PALINA

The public made the Palina cigar-ette — we merely manufactured it. For thousands of smokers seeking something better bought a trial pack-age, which proved Palinas were everything claimed for them and more. A wonderful smoke, without bite or aftertaste—a cigarette so satin-smooth that it could be smoked hour after hour without trace of irritation.

It's a Dash of Java, plus the scientific blending of the most costly Turkish and Domestic tobaccos that put Palina up on top—made them the choice of thousands.

Washington, D. C., July 9.—[Special.]—Only Greece and Liberia, among the nations from which the United States can reasonably expect to receive payment on war debts, stood out tonight as not having made representations to the treasury respecting the question of funding their obligations.

Latvia's minister to the United

Latvia's minister to the United States called at the treasury today to inform acting Secretary Winston that his government recognized its debt to America and desired to undertake a funding settlement.

This government, of course, has made no official statement respecting the money due from Russia or Armenia, but no official will admit of a hope that either ever will return a cent loaned them to aid in the prosecution, or as a consequence of the world war.

Few of the nations which have taken steps to fund have actually entered into conversations with the American debt commission, but nearly all of them have committed themselves to the policy of arranging a settlement, and officials here believe they have gone too far to turn back, the view being that public sentiment for recognition of international obligations in their home lands will permit of no backward home.

sound in front of it terraced sheer from the roadside in fitted stones, and, using for about ten or fifteen feet, the entrance way at one side, work done it quarter of a century ago when labor was not costly.

As Pol went up the entrance road he heard the patter of children's voices, a stacatto treble that suggested "peepers" in a marsh. He then caught sight of them, half a dozen, spaced as closely in age as nature permits in the off-using of one mother. They were playing about the back door with a half grown gangling pup that might have been labeled "domestic dog."

Glowing in the soft sunlight was the multicolored family wash strung cut on the line in an array to suggest the bunting of a yacht dressed in its tools fags for some gala. It was a Saturday, but with such a brood one wash day a week would scarcely suffice.

The pup discovered Nightingale, and lunged forward with a sort of dublous that of bravado and a backward glance at his support. Nightingale, sure to the rown, launched an offensive, sputtering war talk, and her bluff resulted in disorderly retreat to the refuge of a barrel with a plank end nalled across in disorderly retreat to the refuge of a barrel with a plank end nalled across the bottom. The children voiced hilarious alarm, when a pretty girl of soft and slender contours came to the back door and looked at Pol challengingly. Confidence in Cabinet

Every good housewife needs exercise of more of it. The labor saving de-ces are making lazybones out of nen. Something has to be done to ply the energetic muscle movement sework used to involve, whereby nen were wont to get their daily en called by homelier names, such weeping, scrubbing, dusting, wash-

The vacuum cleaner, the electric dish washer, the electric washing machine, the electric ironing machine, and the countless other modern labor saving devices are robbing mother of her best health chances. Her automobile, too, is included in this group by Guy E. Manring of San Francisco

American Institute of Homeopathy Manning said these labor saving entions were turning mother into engineer instead of a housewife.

"These devices," said the doctor, "have my approval, provided milady will take her exercise. If she will walk in the open air for a few miles each day, if she will ride horseback, engage in athletic sports, such as tennis or golf, or do her daily dozen, she is welcome to every one of the inventions that make work easier."

may strike you at first glance as one which has lost a few buttons in the ons that make work easier."
It is because the labor saving device laundry, but if you take a second glance you will note the absence of button holes as well as buttons. This make work easy and instead are making the modern housewife lazy Dr. Manning scolds. For her own good he urges her to take some exercise that she now avoids because of her automobile and the electric equipment in the home. ch have come on the market to one button shirt, except for the but-ton at the collar, is the offering of one shirt manufacturer to the sports wear trade. The shirt is supposed to be one that will not bulge at the waist, since the shirt is closed from the one button down, and pulls on over the head.

"Men need the same kind of scolding," says Dr. Manning, "because not bulging, is that the laundry will find less buttons to rip off. They'd rather wait a few minutes for an elevator to take them to the second floor than climb a few steps. They'd never think of walking a few blocks when a street car, or taxi, is handy. But men will go out for golf if they have a chance, or take vicarious exercise in a ball park, which is not a bad place for a man if he'll enthuse properly in the game, bellow at the top of his lungs, and jump up and down in the excitement of the play."

We've been having some nice hot days in New York during June, in which some men have managed to look cool, even if they haven't felt so, by means of the clothes they wore. It was philanthropic of them, since it makes one a little less hot to see some one who looks cool, but there were plenty of men who didn't do their duty by their fellow men, and went those were the men who wore too much black. There is no hotter color

Dr. Manning need not have exempted women from the charges he makes against men. Women are just as lazy about stair climbing. They take the elevator in the apartment building when a walk up three flights wouldn't do them any harm. And they are getting the taxi habit, too. Some statistics recently read prove that within ties, recently read, prove that within the last few years the short run with women passengers has increased at a tremendous rate.

Women are getting muscularly las-ier, there's no doubt about it. But then I don't know why the doctors should complain, because it makes grand business for them.

IDA M.: FORMULA FOR IDA M.: FORMULA FOR A cleaning cream? Two ounces of oll of sweet almond, % ounce spermaceti; % ounce of white wax; % ounce water; 20 grains powdered boax; and oll of rose, four drops well the white wax and spermaceti ogether at a moderate heat, and add he oll of sweet almond, stirring thoroughly. Dissolve the borax in the rosevater and add slowly to the mixture. Seet briskly until cold. Add four drops of oil of rose. The odor of the rose oil of rose. The odor of the rose water evaporates in the heating, hence the toil of rose. This cream is a light cream color.

MISS M .: IN MANICURING, THE MISS M.: IN MANICURING, THE cuticle should not be pushed back too far, nor with any force, or ridges will result. Likewise it should not be cut too close for there is danger of fissuring and hangnells. Between manicures the cuticle should be greased nightly with olive oil, or cold cream, to prevent dryness. skill in camp cookery is mainly skill with the frying pan and heavy iron kettle. It is also skill in the cooking of sait pork so as to make it serve as wonderful seasoning or as a substitute for butter and gravy or as a cooking medium. Bacon may be more acceptable, but it costs more, and will not go so far, though in cooking all other vegetables save potatoes—not including hashes—its flavor is probably to be preferred. There are exceptions to all rules, as to this one.

MARRIED

No Need to Complain of Loneliness if You Will Heed These Hints BY DORIS BLAKE.

Writes Rose X .: "You spoke in a recent article about a girl of 26 whose father will not let a beau come near the house. What about the girl of 26 who has had more than the usual number of advantages and cannot attract a man? To be exact, I have not had any more than six dates in my entire life, and of late none at all. My parents certainly want me to go out, but I seem to be so lacking in social charm that I can't attract any one. I am really old beyond my time, as I have never been included with any group of young people. I do not think life worth the living, in spite of the

fact that I have a good mother and father and home."

I am wondering if you are not the kind of girl who has never learned how to adapt herself to different kinds of people. When you were 18 and 20, say, you must have known boys and girls you might have gone out among had you contributed something of yourself to them?

One of the first tricks of acquiring social charm is to be able to meet people, many different kinds of peo-ple, and find something interesting in all of them. There is not a soul in the world you cannot learn som Mrs. James Gratton Hopkins.

THE NATIONAL SHAWMUT BANK OF BOSTON, TRUSTEE

CORPORATION: Atlas Plywood Corporation will own all of the properties of Nelson & Hall Company, founded in 1889, Veneer Products Company, Allen Quinby Company, Standard Seating Company and Atlas Plywood Corporation (a Vermont corporation). The Corporation will present a complete unit for the economical production and sale of plywood and veneers. The Corporation will be the largest manufacturer in the United States of plywood and plywood boxes and will also manufacture furniture veneer, lumber, butter tubs and chair seats.

SECURITY: These bonds will be the direct obligation of the Atlas Plywood Corporation, a Massachusetts corporation, secured by first mortgage on all the fixed assets to be owned by the Corporation including approximately 32,000 acres of timber lands to be owned in fee simple, estimated to contain more than 83,000,000 feet of hardwoods and spruce, of an appraised value of \$600,500, and plants, equipment, real estate, etc., of an appraised value of \$2,401,751. The balance sheet of the Corporation adjusted to give effect to the acquisition of the properties mentioned and the issue of these bonds shows current assets as of December 31, 1924, amounting to \$1,397,721 as against current liabilities of only \$318,639. Net assets are equivalent to \$2,741 for each \$1,000 bond.

Year ended December 31, 1922 Consolidated Net Profits of the constituent companies \$544,994 \$957,229 \$736,340 143,878 149,660 Balance Available for Interest and Federal Taxes . \$430,727 Annual Interest on \$1,500,000 Bonds (this issue) . . . 97,500 \$813,351 \$586,680 97,500

Consolidated net earnings of the constituent companies, for the three years ended December 31, 1924, after a liberal allowance for maintenance, depreciation and depletion, average \$610,252. before Federal Taxes or over 6 times maximum annual interest charges on the total amount of bonds to be presently issued. On the same basis the net earnings for five years ended December 31, 1924, average \$532,683, or approximately 5½ times maximum annual interest charges on the total bonds to be presently issued.

DIVIDEND RECORD: For the five years ended December 31, 1924, the constituent companies have paid cash dividends totalling \$1,180,589, an average of \$236,118 per annum, and for the ten-year period ending December 31, 1924, annual cash dividends have averaged \$151,267.

PROPERTY: Atlas Plywood Corporation will own and operate five well established manufacturing plants in Vermont and Maine and assembling plants at Camden, N. J., and Lawrence, Mass. It will own approximately 32,000 acres of timber lands estimated by Mr. John A. Wheeler, Boston, Mass., to contain more than 83,000,000 feet of hardwoods and spruce. These timber lands are in close proximity to manufacturing plants, and together with other available standing timber they are estimated by Mr. Wheeler to contain an available supply of raw material to run the plants continuously for over twenty-five years.

SINKING FUND: The mortgage will provide that the Corporation will pay annually to the Trustee as and for a sinking fund for the retirement of these bonds, an amount equal to \$6 per thousand log feet of timber cut or removed during the preceding year from the property subject to the mortgage or an amount equal to 12½% of the net earnings before depletion for the preceding year whichever is greater. This fund will be used to retire bonds either by purchase in the open market at not in excess of the redemption price or by call by lot under the terms of the mortgage.

We affer these bonds when, as and if issued and received by us, subject to the approval of our counsel, Messes. Cation & Franklin, New York. Delivery will be made in the form of interim receipts of The National Shaumut Bank of Boston, on or about July 21, 1925.

WhyStraus Bonds Are Ideal July Investments

In selecting your July investments, you naturally will seek a good interest return on your funds, but not at the sacrifice of those principles of sound investment dictated by experience, prudence and caution.

Straus Bonds, you will find, are an ideal investment for your July funds. Note these features-

SAFETY—assured by the STRAUS PLAN and by the long and wide experience and expert knowl-edge of the Straus Organization.

DIVERSIFICATION—our current offerings are secured by properties in a score of cities from MARKET-Straus Bonds have a free and steadily broadening outside market.

YIELD—our July offerings for the most part net about 6%, a better yield than from other securities of equal soundness.

July is passing quickly. Every day's delay may mean loss of interest to you. We suggest that you call or write at once for our current July investment suggestions and specify

American Telephone & Telegraph Co.

\$20,000,000 Hershey Chocolate Company

First Mortgage and Collateral Trust Sinking Fund 52% Gold Bonds

To Be Dated July 1, 1925.

To Mature July 1, 1940.

THE NATIONAL CITY BANK OF NEW YORK, Trustee.

Free From the Pennsylvania Personal Property Tax

The following information has been summarized by Mr. W. F. R. Murrie, President of the Company: The Hershey Chocolate Company, producing the well-known Hershey Brand of Chocolate, Milk Chocolate, Almond Bars and Breakfast Cocoa, is the largest manufacturer of Milk Chocolate in the world. The property owned by the Company includes the chocolate and cocoa

plant located at Hershey, Penna., having a floor area of over forty-five acres.

Through constituent companies, the Company owns Centrals Hershey Rosario and San Antonio and proposes to acquire Central Carmen, all in the province of Havana, Cuba. The properties are modern and advantageously located as to cane lands and transportation. The four centrals produced over 814,000 bags of sugar during the 1924-1925 season, and, as a result of

certain additions and betterments which are

now in progress, it is expected that the produc-

tion of the 1925-1926 season and ensuing years

will be materially increased. The proceeds of this issue of Bonds will be used to retire, on November 1, 1925, the existing First Mortgage Sinking Fund 6% Gold Bonds. of the Company now outstanding, to reimburse the Company for the purchase of Central San Antonio, to enlarge the capacity of Central Hershey, and for other corporate purposes, including the proposed acquisition of Central

These Bonds, in the opinion of counsel, will be secured by a closed first mortgage on all of the real estate, plants and fixed assets of the Hershey Chocolate Company in Pennsylvania

now owned or hereafter acquired, subject only, as to any property hereafter acquired, to any liens thereon existing at the time of the acquisi-tion thereof, and will be additionally secured by deposit of all the capital stocks (except directors' shares) of all constituent companies operating in the United States and Cuba, upon completion of the present financing, neither the company nor any of its constituent companies will have any other outstanding funded obliga-

The mortgage will provide a sinking fund which is confidently expected to retire the entire issue of these Bonds prior to the maturity date.

The consolidated net income of the Hershey Chocolate Company and its constituent companies for the five months ended May 31, 1925, after depreciation and before interest and federal taxes, amounted to \$2,876,376, or over 61/4 times the interest requirements on these Bonds cember 31, 1924, the average annual net income amounted to over \$4,328,000, or more than 3.93 times the annual interest requirements on these

A consolidated balance sheet of the Company as of May 31, 1925, adjusted to give effect to the financing and transactions incidental thereto, shows current assets over 51/2 times current liabilities, while net tangible assets, after deducting all liabilities other than these Bonds, amount to over \$48,000,000, or more than 2.4 times the amount of these Bonds.

Application Will Be Made to List These Bonds on the New York Stock Exchange

We offer these honds, if, as, and when issued and received by us, subject to approval by stockholders and to the approval of all legal proceedings by our counsel. It is anticipated that delivery in temporary form will be made on or about July 21, 1925.

Price 98 and Interest, to Yield 5.70%

The company's first mortgage 6% bonds due November 1, 1942, with all unmatured coupons attached, to be called for redemption November 1, 1925, at 104% and accrued interest, will be accepted by us on a 3½% bank discount basis from the date of payment to the date as of which they may be called, the equivalent of which, as of July 21, 1925, is \$1,059.28 flat for each \$1,000 bond.

Dean, Onativia & Co.'s Fate to Be Decided Soon

The fate of Dean, Onativia & Co., the big Chicago and New York brokerage firm which failed a week ago with liabilities of \$35,000,000, will be decided today or tomorrow.

Late last night the creditors of the firm had subscribed about \$2,100,000 of new capital, leaving about \$400,000 still to be raised. The New York stock exchange had set \$2,500,000 as the amount of new capital necessary for a

ANNOUNCEMENT

Investors in Miller Bonds can obtain an unconditional guarantee of payment of principal and interest

IT HAS always been the policy of G. L. Miller & Co., they desire.

In accordance with this policy, we have made arrangements so that investors can obtain Miller Bonds with an unconditional guarantee of principal and

A large, strong and responsible indemnity company, under strict legal supervision, will, upon the annual payment by the bondholder of 1/2 of 1 per cent of the face value of the bond, guarantee the payment of principal and interest to the bondholder.

Bondholders who purchase this guarantee will receive 6½ per cent interest from 7 per cent bonds, 6 per cent interest from 61/2 per cent bonds, etc.

We have always believed that if a bond is amply secured by improved real estate of sufficient value, a guarantee is an unnecessary and costly luxury for the bondholder.

If, on the other hand, a guarantee is needed to make Inc., to provide customers the safety of the bond asof the House with every sured, such a bond should convenience and service never be offered as an investment.

In offering this optional guarantee, we are not departing from the conviction expressed above; we are simply providing investors with an extra service and convenience should they desire to have their investments insured and be willing to pay for such insurance.

Miller Bonds have always been safe. We shall not let this guarantee provision operate in any manner to lessen the strict vigilance, caution and care which we exercise in testing and underwriting bond issues before we offer them to the public.

Write for Booklet G-1628, which gives detailed information regarding the guarantee and a list of current offerings of Miller Bonds paying up to 7 per cent interest and secured by structures in the North, East, West and South.

A Warning.

It has been brought to our attention in that a concern called the "Real" Estate Bond Exchange" here in Chicago has sent out through the mails a sheet offering for sale a list of some twenty-one bonds and containing the statement that these bonds "are recommended very highly by the Investors Guide department if The Chicago Tribune.]

We wish to warn the public that that statement not only is unauthorized and unwarranted but is untrue.

A few of the bonds on their list we have rated as a business man's investment in private replies by mail to inquirers, but the majority of the bonds we have never passed upon and do not even know their terms.

Such a misstatement, trading on the good name of this department; is clearly intended to mislead the public and tends to destroy confidence in any statement made by the above mentioned concern.

Calumet Gas and Electric Company

First and Refunding Mortgage 51/2% Gold Bonds, Series B Due July 1, 1960

Price 981/2 and Interest, yielding about 5.60%

Dated July 1, 1925. Interest payable January 1 and July 1 at the offices of Halsey, Stuart & Co., Inc., in Chicago and New York without deduction for Federal Income Taxes now or hereafter deductible at the source, not in excess of 2%. Coupon Bonds in denominations of \$1000, \$500 and \$100.

For detailed information regarding these Bonds, attention is directed to a letter of Mr. Samuel Insull, President, from which the following is summarized:

The Company: Calumet Gas and Electric Company now serving directly 72 Indiana communities with electricity and 2 with gas is acquiring the properties of the Calumet Power Company whose transmission line is an important link in the super-power ring around Chicago. This 132,000 volt high-tension transmission line interconnecting the generating stations of Commonwealth Edison Company of Chicago and Public Service Company of Northern Illinois with the properties of Northern Indiana Gas and Electric Company and of this Company makes the Calumet-Gary section of Northern Indiana an integral part of the greatest power zone in the world.

Security: The Mortgage under which these Bonds will be issued covers as a direct first mortgage all physical property of the Company now owned and being acquired. It also covers all fixed property hereafter acquired by the Com-pany, subject to outstanding divisional bonds, if any, on properties at the time of their acquisition and those thereafter issued for pledge under the

Earnings: For the year ended April 30, 1925, consolidated net earnings of the Company as presently constituted, before depreciation, reflecting one year's lease rental from Northern Indiana Gas and Electric Company, were \$706,785.46 as compared with the annual interest require-ment on the Company's total funded debt after this financing of \$298,500.

Management: The Company's outstanding Common stock is owned or controlled by the Midland Utilities Company, thereby placing the Company's management in the hands of men long experienced in the public utility field.
